Subject: RE: EPA is issuing an Information Request to Ahlstrom-Munksjo

There are about seven questions that are a follow-up to the previous 114. Generally, they cover boiler and lime kiln operational questions, i.e. throughput and fuel usage. There was also a question about the permit SO2 limits. Our engineers spoke with Michelle Farley and Carol Crawford to see what information they had. We have also spoken with the company and they know the 114 is coming.

Please let me know if you have any further questions.

Sarah,

I see this is a follow up to the previous 114 letter, is it a few remaining questions that have not been answered or extensive additional questions? Any extra information for me?

Maria

Hi Maria and Randy,

EPA is issuing an information request to Ahlstrom in Kaukauna requiring information on its compliance with the permit limits for SO2. This is a follow up to the information request sent to Expera, the previous owner in 2018. Please let me know if you have any further questions or concerns.
